SUMMARY

Dynamic & result-oriented full stack developer with 2+ years experience, possessing demonstrated acumen in full-stack development including software development, technical analysis, and testing. Highly skilled in collaborating with team members to deliver effective results within the stipulated time.

KEY SKILLS

- Angular 7+
- PostgreSQL
- NgRx
- RabbitMQ
- Python
- C#
- Nodejs
- Typescript

PROFESSIONAL EXPERIENCE

Siemens Technologies

Jul '18 - Present

Electronic Vehicle Charging

- » Developed **reusable front-end components** using angular
- » Developing **features end-to-end**, including new REST API, handling message in the message broker to frontend implementation
- » Coordinating with on-sight scrum team of **6 members**
- » Assessing deployment activity - production release - to ensure the **timely delivery** of project to the customer
- » Mentoring & guiding new **project trainees** to enhance the efficiency of deliverables
- » Developed a tool to run Database migrations on different environment which reduced migrations time by **10 times**
- » **Automated deployment** process using shell scripts, reducing manual effort and error occurrence

SIMATIC WinCC Engineering (TIA Portal)

- » Provided search support for unified devices by using edit-distance search algorithm.
- » Increased test coverage of existing code from **40% to 70%** by writing unit test cases and integration tests.
- » Modularized the existing code by modifying the architecture using design principles.

EDUCATION

» Bachelor of Engineering in Computer Science

University Visvesvaraya College of Engineering, Bangalore | '14 - '18 | **72%**

EXTRACURRICULAR ACTIVITIES

- » Part of organizing team and designing of SIEMENS DF - PD Sports day
- » **Vice-Chairperson**, IEEE UVCE | '17 - '18
- » **Membership Incharge**, IEEE UVCE | '16 - '17
- » Part of designing and organizing team of Centenary Souvenir Avalokana
- » Lead organizer of the college trekking club - Chakravyuha

ACHIEVEMENTS & CERTIFICATIONS

- » Won **Bravo Award** for automating deployment process which reduced **70%** of deployment time
- » Completed **SAFE practitioner** certification in Aug '20
